CONNERS CBRS® 2

Conners Comprehensive Behavior Rating Scales™ 2nd Edition

AN EASY TRANSITION FOR CONNERS CBRS® ONLINE USERS TO CONNERS CBRS® 2

If you currently use the Conners Comprehensive Behavior Rating Scales™ (Conners CBRS®) assessment on the MHS Online Assessment Center+ (MAC+), you can easily transition administration to Conners Comprehensive Behavior Rating Scales™ 2nd Edition (Conners CBRS® 2).

A self-serve transition process is available for eligible online users. Immediately access Conners CBRS 2 to allow one-to-one substitution of existing Conners CBRS Uses and automatically convert any remaining unused inventory at the end of the transition period.

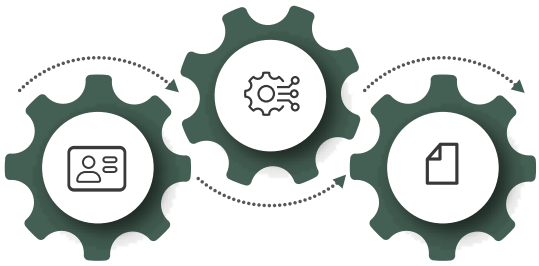
TRANSITION OVERVIEW

- On the Conners CBRS 2 release date, all MAC+ administrative users with access to Conners CBRS will have immediate access to Conners CBRS 2 in their accounts.
- Existing Conners CBRS Uses for any form type can be substituted for Conners CBRS 2 Uses on a one-to-one basis to score and generate a Conners CBRS 2 report—before Conners CBRS 2 Uses are purchased.
- The transition period will remain in effect until **August 31, 2027.**
- Any unused Conners CBRS inventory (all form types) will automatically convert to Conners CBRS 2 Uses at the end of the transition period in August 2027.

HOW IT WORKS

ENABLE ACCESS

Conners CBRS 2 will appear on MAC+ for all administrative users who already have Conners CBRS. **To begin using Conners CBRS 2, administrative users must enable Conners CBRS 2 in Account Settings > Manage My Assessments.** Administrative users can also grant their sub-users access to Conners CBRS 2 by enabling access through this process.



ADMINISTER THE ASSESSMENT

Users can administer Conners CBRS 2 to clients even if their Conners CBRS 2 Use balance is zero.

GENERATE THE REPORT

If the Conners CBRS 2 Use balance is zero at the time of report generation, users can select an available Conners CBRS Use instead. Users can specify which Conners CBRS Use to substitute during report generation. To ensure Uses remain available for substitution, Conners CBRS must remain enabled during the transition period.

Note: During the transition, if Conners CBRS 2 Uses are purchased and added to an account, those Uses will be applied first when generating reports. The substitution option will not be available while Conners CBRS 2 Uses remain in the account and will only become available once all Conners CBRS 2 Uses have been fully consumed.
